
Case Tattooed Cat Olsen Mary Kate Harper

thermostats, locks and lights - static01.nyt - possible case of pneumonia and some-one with a rash. there were also patients on her schedule with a problem most primary care doctors don t treat: a former construction worker fighting an addiction to opioid painkillers, and a tattooed millennial who had been injecting her-oin four times a day. opioid overdoses are killing so many americans that demographers say they are likely behind a ...
